8:30PM-MIDNIGHT | CONCERTS

Ellinoa & Wanderlust orchestra Ville Totale

The city, which both reassures and troubles, between crowds and isolation, wealth and poverty, abundance and sterility, is at the heart of the *Ville Totale* project, which tells the story of its metamorphosis. The music, between contemporary orchestral jazz and pop songs, is played in 3D sound, and plunges the spectators into the heart of the sound and their emotions, creating a new dimension of listening.

La Marmite Infernale Humeurs et Vacillements

Humeurs et Vacillements is the new repertoire of La Marmite Infernale, ARFI's unclassifiable big band. The concert features a daring and unprecedented combination of instruments, borrowing from jazz as well as traditional music, from Messiaen as well as garage punk, and freeing itself from diktats, driven by the search for a poetry of the imaginary.

> for everybody
